Ulmus 'Patriot' - Patriot Elm

Height: 60' Tall
Spread: 40' Wide
Form: Pyramidal to upright
Sun Exposure: Sun to Partial Shade
Fall Color: Yellow
Growth Rate:
Soils:
Cold Hardiness: Zone 4
Significance: American Elms historically lined Broad Street creating a beautiful tree canopy over the thoroughfare.

Ginkgo biloba - Ginkgo Tree

Height: 40-80' Tall
Spread: 30-40' Wide
Form: Pyramidal to upright
Sun Exposure: Sun to Partial Shade
Fall Color: Yellow
Growth Rate: Slow to medium
Soils: Adaptable to various soil conditions
Cold Hardiness: Hardy to Zone 3
Significance: Extracts of Ginkgo leaves contain flavonoid glycosides & terpenoids which can be harvested and used for medicinal purposes.

Celtis occidentalis - Common Hackberry

Height: 40-60' Tall
Spread: 40-60' Wide
Form: Cylindrical
Sun Exposure: Sun
Fall Color: Yellow
Growth Rate: Fast
Soils: Adaptable to various soil conditions
Cold Hardiness: Hardy to Zone 3
Significance: A native tree from the Piedmont region of NJ, which the city of Newark sits in. This tree produces an edible fruit and attracts birds.

Nyssa sylvatica - Black Tupelo

Height: 30-50' Tall
Spread: 20-30' Wide
Form: Pyramidal to flat-topped
Sun Exposure: Sun
Fall Color: Orange/Red
Growth Rate: Slow
Soils: Adaptable to various soil conditions
Cold Hardiness: Hardy to Zone 4
Significance: A unique tree, beautiful in all seasons with spectacular fall color and crooked, picturesque branching.
